M3X2 ISOLATION BASE

“The M3X2 Isolation Base is a no compromise product. It is designed to allow your audio system to achieve it’s full potential so you can completely enjoy the presentation of your favorite performances. It is built with carefully selected materials, using exceptionally high manufacturing standards, so it will always look and perform as perfectly as the day it left our factory.”

*Michael Latvis, Chief Engineer
Harmonic Resolution Systems Inc.*

The **M3X2 Isolation Base** is the latest generation of reference level isolation bases from Harmonic Resolution Systems. It is manufactured from six different materials including two proprietary polymers, billet-machined aircraft aluminum and polished black granite. The M3X2 load range is matched to the component weight for maximum performance and can be modified in the future preserving its value.

The M3X2 is the result of more than a decade of research and development into achieving true reference level audio system performance.
