

## HRS DAMPING PLATE Mk II

### Introduction

Thank you for purchasing the Harmonic Resolution Systems (HRS) Damping Plate Mk II. When used properly, it will give you many years of superior musical or video signal reproduction. The HRS Damping Plates significantly reduce the negative impact of air and structure borne vibration on your audio or video component performance. The HRS Damping Plates are a perfect match for the HRS Isolation Base. While the damping plates work to significantly reduce air-borne vibration, the isolation base significantly reduces the harmful effects of structure-borne vibration.

### Safety Instructions

IMPORTANT!

Do not place any tall objects on the damping plate. A tall object is any object that has a height greater than its own width or length. The object may become unstable and tip over.

Do not place the damping plate over ventilation holes of any electronic component. The ventilation holes will be blocked and the internal operating temperature of the component will be increased.

### Setup Instructions

The HRS Damping Plates should be placed directly on top of an electronic component chassis or speaker cabinet with the soft side of the damping plate in contact with the component surface. The greater the surface area covered by the damping plates the greater the improvement in audio/video performance.

Note that porous dark paints can attract and retain moisture from the HRS Damping Plate rubber, and that this can cause slight discoloration over time. If minor cosmetic changes in surface finish are a concern, HRS does not recommend using the Damping Plates on those surfaces. Please refer to “Care and Maintenance” below for more information.

### Specifications

**HRS Damping Plate Physical Characteristics**

Model Number	Dimensions - inches (cm)	Weight - pounds (Kg)
DPII-05545	5.5 x 4.5 x 0.7 (14.0 x 11.4 x 1.8)	1.1 (0.5)
DPII-09545	9.5 x 4.5 x 0.7 (24.1 x 11.4 x 1.8)	2.0 (0.9)
DPII-14545	14.5 x 4.5 x 0.7 (36.8 x 11.4 x 1.8)	3.1 (1.4)

### Care and Maintenance

The HRS Damping Plates are a very low maintenance item that will provide many years of trouble free performance by applying these basic care instructions.

Clean the Damping Plates using a lint-free soft (non-abrasive) cloth. Use a damp cloth with water or mild soap if required. Do not spray with or immerse in water.

Porous, flat (no sheen), dark, paint colors tend to attract and retain moisture from rubber contact surfaces after prolonged exposure. This causes slight discoloration. This can usually be reduced or removed by gently wiping the surface with a soft black cloth damp with Pledge Multi-Surface cleaner (836661). Allow the cleaner to dry completely between wipes. HRS recommends testing this process on a small area of the chassis first to confirm that it will not leave a residue or damage the paint.

## **Warnings!**

Do not place objects with sharp or pointed feet directly on the damping plates as they may cause nicks, scratches or gouges in the surface.

Do not use an abrasive cleaner or abrasive sponge to clean the damping plates, as they may scratch the metallic surface.

Do not wash with any solvent based cleaning solutions.

Prolonged contact with the rubber pads of the damping plates can cause slight discoloration on black painted surfaces.

## **Warranty**

### Limited Five Year Warranty

Harmonic Resolution Systems Inc. warrants to the purchaser that each HRS Damping Plate Mk II is free of manufacturing defects for a period of five (5) years from the date of purchase. This warranty is subject to the following conditions and limitations.

1. A copy of the original purchase receipt from a certified Harmonic Resolution Systems Inc. authorized retailer is used to verify the date of original purchase and ownership.
2. This warranty is void and inapplicable if the product has been handled other than in accordance with the instruction specified within this document, abuse or misused, damaged by accident or neglect or in being transported, or the defect is due to the product being tampered with, modified or repaired by anyone other than Harmonic Resolution Systems.
3. Warranty does not cover normal recommended care and maintenance.
4. Harmonic Resolution Systems Inc. shall not be responsible in any way for consequential or indirect damages or liabilities resulting from the use of the product covered herein or resulting from any breach of this warranty or any implied warranty relating to said product.

During this period, Harmonic Resolution Systems Inc. will repair or replace any defective components free of charge. A Return Authorization Number (RA Number) is required before any product is returned to Harmonic Resolution Systems Inc. for any reason. This number must be visible on the exterior of the shipping container(s) for Harmonic Resolution Systems Inc. to accept the return.

Units shipped to Harmonic Resolution Systems Inc. without a visible RA Number on the exterior of the shipping container(s) are subject to be returned to the sender, freight collect.

Units to be repaired by Harmonic Resolution Systems Inc. must be sent shipping and insurance prepaid by the original purchaser in the original packaging material. A returned product should be accompanied by a written description of the defect. Repaired units will be returned by Harmonic Resolution System Inc shipping and insurance prepaid.

All other warranties or conditions either written or implied are void.

(MADE IN USA)

All Harmonic Resolution Systems Inc. products are 100% Made In The United States of America by skilled craftsmen using only the finest materials and our personal dedication to the highest workmanship standards.
